#### ▲ The underestimated cut injury from glass ampoule

One in three healthcare workers has experienced a cut when opening a glass ampoule by hand. Regrettably, many users and clinical administrators have underestimated the likelihood of these injuries.

Cuts from glass ampoules can happen to anyone, including you, no matter how experienced you are in opening ampoules. Even a minor ampoule cut can restrict your clinical activities. More serious injuries such as tendon lacerations have been reported.

Repeated personal injuries whilst opening ampoules, led an Australian registered nurse to invent the award-winning Qlicksmart SnapIT ampoule opener.

#### ▲ The award-winning ampoule opener

SnapIT is designed to protect users from injury when an ampoule exposes a sharp edge or shatters while being opened.

SnapIT is designed to allow for customization with your institution's name and logo, which is a great way of reinforcing to your customers and staff that their safety is important to you.

SnapIT ampoule openers are made from high-quality, autoclavable aluminium.

The ampoule openers are simple to use with a quick "insert and snap" action.

Being reusable, SnapIT is a cost-effective solution to open glass ampoules.

The ampoule opener has won multiple awards, which demonstrate its practicality and effectiveness in reducing glass ampoule injuries.

The personal edition is perfect for hanging on a lanyard or carrying in a pocket for easy, on-the-go use.

The Trolley edition is available in three sizes (R, L, and XL); all with a flat side that stops it from rolling and potentially falling off a table or trolley

# ▲ Specifications

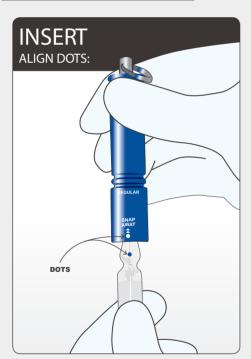

Product edition	Personal Trolley			
Product code	SN-01R	TE-01R	TE-01L	TE-01XL
Product size	Regular	Regular	Large	Extra Large
Compatible ampoule sizes*	1-2ml, 5-10ml, 10-15ml	1-2ml, 5-10ml, 10-15ml	5-10ml, 10-15ml, 20-25ml	20-25ml, 25-30ml
Size per unit	Length: 80mm Width: 17mm	Length: 80mm Width: 25mm	Length: 80mm Width: 29mm	Length: 80mm Width: 25mm
Weight per unit	34g	50g	74g	66g
Colour range	Blue, Purple	Black	Red	Blue
GMDN code	10098			
Material	Anodised aluminium (body), Silicon (O-ring), Stainless steel (keyring and spring).			
Latex	No			
DEHP	No			
Sterile	No, but autoclavable to 130°			
Re-usable	Multi-use. O-ring can be replaced if lost or broken.			
Regulatory	USA FDA listed			

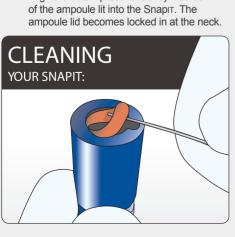

\*Compatibility depends on the ampoule's geometry and the diameter of the ampoule lid.

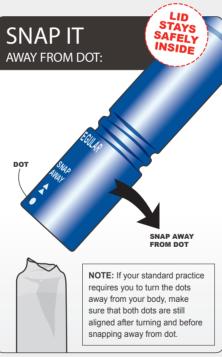

Ampoule of the same size can have a different geometry and amopoule lid diameter. The ampoule size in ml is only used as a guideline.

# ▲ How to use SnapIT

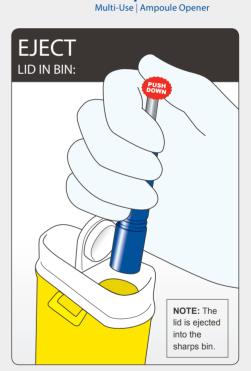

1. Align the dots if present. Gently insert all of the ampoule lit into the Snapır. The

2. With little effort, lever away from the dot to snap off the lid. The lid should remain held in the SnapıT.

**Snapit** 

3. Carefully aim over a sharps bin and eject the lid by pushing down on the rod with your thumb.

4. Clean your Snapı⊤ regularly. Remove O-ring as shown to disassemble the parts and clean with water or hospital grade cleaner. Do this in a clean dish to avoid loss of parts. Dry completely then re-assemble.

**NOTE:** If the ampoule lid breaks, tap the SnapıT over a sharps bin to remove excess glass pieces then rinse under running water before disassembling.

If the ampoule lid is too big, it will not fit through the entrance. Use a larger Snapır. If the ampoule is too small, the Snapit will not hold the top securely. Use a smaller Snapit.
